

Year 1 Learning Log

I like being a mathematician:

- Draw a picture of a dinosaur, using only 2D shapes.
- A dinosaur fossil costs 10p. Using only 1p, 2p and 5p coins, how many ways can you find to make this amount?
- Can you order numbers from 1 – 20 in different ways. For e.g. smallest to largest.

I like being a reader, a writer and being creative with words:

- Choose a dinosaur and create a fact file, book or poster all about them.
- Find or write some dinosaur jokes and come and share them with the class!
- Learn a poem to recite in front of the class about dinosaurs.

I like being creative:

- Create a dinosaur picture using paint, pens, pencils or your choice of materials.
- Create your own dinosaur. Draw and label it.
- Produce a 3D model of a dinosaur habitat.

I like being a scientist:

- Find out what a herbivore, a carnivore and an omnivore is.
- Can you name any of body parts of a dinosaur?

I like being an active learner:

- Visit a tropical animal centre/shop to have a closer look at some modern day reptiles. Take some photograph's to share with the class.
- Make a dinosaur biscuit or cake.

For your home learning challenge please complete at least 1 piece of work from each section.

Your challenges must be creative, informative and in your own words. We look forward to seeing how imaginative your challenges will be. Please take pride in each piece of work you do and have fun!!

To be completed by Friday 8th October
